## Class of 2023

**From:** Upper East Side

**First Year at HM:** Pre-K (The 4s)

**Favorite Classes:** Not an easy decision... If I had to pick, I'd say Physics Honors, Software Engineering, and English 11.

**Favorite In-Class Discussion:** My favorite in-class discussion this past year took place in physics, where we discussed what exactly would happen to someone who fell straight through a hole in the center of the Earth.

**Why HM?:** I love HM because, even when the going gets tough, there's always a network of support and people who care about and want to support you. I've always been able to strike up a conversation with a faculty or staff member about pretty much anything, not just related to the course they teach. Even when it would be easier for them to walk away, the adults at HM are committed to seeing you succeed in whatever manner you see fit.

**Favorite Cafeteria Food:** I am outspoken about my love for the cafeteria's chicken tikka masala and think it should be served more than once every month.

**Favorite TV Show:** I am nostalgic for old TV shows and will actively binge ones from my early childhood. I'm currently watching Wizards of Waverly place, which is probably the first TV show I watched regularly growing up.

**Out-of-School Activites:** I am a private pilot and one of my favorite activities outside school is flying.

**Favorite HM Event:** Hands down the best HM event is international food festival, where parents and students make some of their culture's food for the entire school to enjoy.
